Airplane Has Odd Effect on Denizens of Jungle.

Many Animals Fled From Strange Sight but Others Showed Neither Fear Nor Curiosity.

Jason Humphreys, the twelve-yearfather, the pilot, a camera man and a scientist from Calry to Cape Town, enjoyed a more novel experience than most boys of his age will ever know.

The sudden change from bush to civilization as represented by clear- pening by occident." ings for small villages and farms and back again impressed young Humphreys very much. He was more in terested, however, in the behavior of he was flying. These took the passing of the airplane variously. Birds showed almost no cariosity except in the remotest regions. "They just flew along with us or left us," says the war. African birds undoubtedly saw flying machines and became more or less used to them.

Wild beasts showed individual temperaments. Lions and leopards could die. And they take it as also the giant purring overhead. If the ma- better than way other tree in the chine came so low that the noise of neighborhood. the engine could not help reaching underbrush, but they never looked up, The naturalist has offered no explanation for this, It is a new phenomenon and must be studied.

Usually lions and leopards are in terror of strange noises, and know from infancy, by instinct, that gun- wrate. fire bodes them no good. During the late war there was a general exodus of wild beasts from every quarter of Africa where any lighting was going been resources

DREDNUT is L D made especially for the most particular people. Those who have tried the famous

Brednut test say they cannot tell Brednut from the finest, The Famous Brednut Test freshest, and most expensive spread for bread.

It looks like the costly product when on the table, spreads like it, tastes like it. The texture is the same, and it is equally good on bread, toast, corn, meatson all cold and hot foods.

Yet Brednut does not contain a trace of animal fat. Nothing but the cleanest, purest cream of the cocoanut-selected and treated in the exclusive Brednut way under the direction of experts who have had twenty years' experience.

Brednut costs less because it is less expensive to grow cocoanuts than to feed cows.
